

Voith Hydro Wavegen Limited is a wholly owned subsidiary of Voith Hydro.

What We Offer

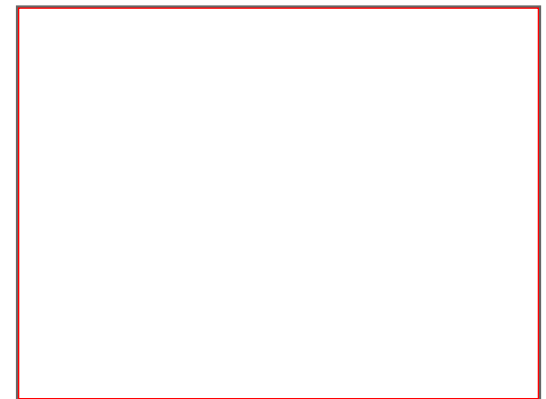

:: We offer a range of specialist products, services and skills.

Limpet is a shoreline wave energy conversion unit currently in use and connected to the national grid.

Nearshore OWC is a near-shore unit that, like Limpet, uses the oscillating water column (OWC) principle of power generation.

We can offer potential developers a wide range of project development services, from feasibility through to production.

We also own and operate a state-of-the-art wave test tank and turbine test facilities.
