

Voith Hydro Wavegen Limited is a wholly owned subsidiary of Voith Hydro.

Islay Wave Cam

:: From this page you will be able to access real-time web cam streaming of our Limpet device on Islay.

There are 3 web cams at this location.

2 of the web cams are sited to provide external shoreline shots of the Limpet - in natural daylight conditions.

During the hours of darkness at the site we do not illuminate the Limpet externally so the streamed images from these 2 external web cams will of course be black.

The 3rd web cam provides an internal view of the Limpet and is illuminated - however wet conditions may at times cloud the web cam lens.

:: To view our web cam images in a new browser window please [click here](#) ::

Please note:-

Web cam viewing is set to automatically terminate after 5 minutes, this is to ensure viewing access for our engineers and technicians who use this facility throughout their working day.
